The Clerk read the following communication from Attorney Ellwood M. Rabenold, relative to the pipes of the Commonwealth Water Co., in the Village of Hunter:

61 Broadway, New York, August 5, 1915.

Board of County Supervisors, Catskill, New York:

Dear Sirs—I am informed that in the building of the new State Road through the Village of Hunter the workmen are about to uncover water mains of the Commonwealth Water Company in several cases, especially where culverts are being constructed across the Highway. These culverts are about two feet wide and three feet deep, leaving the mains at these

points with a very scanty covering, and thus exposing them to the frost in Winter. The frost in this section at times reaches, as you know, a depth of from four to five feet.

I wrote to the Highways Commission calling their attention to this situation, and have received a letter from the Secretary in which he states that in the opinion of the Attorney-General the responsibility rests upon the Board of Supervisors of the County where such highway is located; and that it is the duty of the County to bear the expense of lowering the pipes or changing them so that the improvement may be carried through to completion without interfering with the privilege or franchise which has been granted to the Water Company.

I beg to ask what steps, if any, have been taken by your Board to avoid this very substantial damage which is threatened to the Water Company's property?

Very truly,

EDWARD RABENOLD.

On motion of Mr. Goslee, Mr. Deane was appointed a committee to confer with Frank H. Osborn as to the responsibility of the county in the matter of the pipes of said water company.

State of New York, State Board of Charities,
Albany, N. Y., July 16, 1915.

To the Board of Supervisors of Greene County:

Gentlemen—The State Board of Charities transmit for your consideration the inclosed report of the recent inspection of the Greene County Alms-house, Cairo, N. Y., made by Inspector Anderson on May 3 and 4, 1915.

These reports are classified as to Plant and Management as follows:

Class I show practically no defects.

Class II show few or less important defects.

Class III show many or more serious defects.

Reports placed in Class I are sent for your information.

Those placed in Class II are sent in the belief that the indication of any defect should cause prompt remedial action.

Reports placed in Class III indicate many or more serious defects, and are transmitted to Boards of Supervisors and Superintendents of the Poor that they may comply with Section 118 of the Poor Law, and take immediate action "with a view to proper remedies in accordance with the advice of the State Board of Charities."

The State Board of Charities has considered this report and placed it in Class II as to Plant and Class I as to Administration.

Attention is called to the needs of the institution as shown by the report. These should have immediate attention—and this Board be promptly informed of the action taken thereon.

Yours respectfully,

ROBERT W. HEBBERD, Secretary.

STATE OF NEW YORK, STATE BOARD OF CHARITIES.

Department of State and Alien Poor.

REPORT OF INSPECTION OF GREENE COUNTY ALMSHOUSE

Made by Inspector M. W. Anderson, May 3, 4, 1915.

Superintendent of the Poor, Ira T. Tolley, began service Jan. 1, 1907.

Postoffice Address and Railroad Station, Cairo, New York.

Capacity, for men, 50; for women, 40; total, 90.

Estimated value of buildings and land, \$30,500.

LOCATION.

The Greene County Almshouse is pleasantly located about a quarter of a mile distant from the Cairo Station. The approach is through a driveway bordered by white birches, and the grounds about the institution are laid out in well-kept lawns and flower-beds.

THE BUILDINGS.

The main building is of brick with gray stone foundations, and is two stories in height with a third story of frame construction in the center. The right wing contains the dormitories of the women, and the left wing those of the men. The administration offices and the residence of the superintendent and his family occupy the front of the central portion, while the rear contains the service division.

Behind the main building is a two-story frame dormitory for men with a smoking room on the first floor. Beyond this are the various farm buildings, which include a smoke-house, corn-house, hog-pen, hay-barn and cow-stable, hen-house, wood-house, horse-barn and carriage-house.

IMPROVEMENTS.

Improvements to the plant and equipment since the last inspection include:

1—The installation of new steel ceilings and side walls in the corridors of the main building in both the men's and women's sections and in three of the largest dormitories.

2—Repainting the exterior of the men's buildings, and the roofs of the buildings for inmates, the horse-barn and the carriage-house.

3—Repainting interior of the men's building and of woodwork in halls and dormitories of the main building.

4—Construction of a new fence around the women's yard.

5—Repairing of heating plant.

FIRE PROTECTION.

The main building is of fire-resisting material. There are interior wooden stairways in the center and in each wing of the main building and on opposite sides of the men's building, which is of frame construction. There are no exterior iron fire-escapes. Each floor of the main building is equipped with standpipe and hose. The partition which separates the men's section from that of the women is covered on both sides with sheet iron. Twelve dry-powder extinguishers and twelve liquid-chemical extinguishers are distributed throughout the interior of the buildings. The latter has not been recharged during the past year. Exterior protection is afforded to the buildings by three double hydrants on the grounds and a mounted reel of hose kept in the barn. The water supply is from Cairo and the pressure is said to be good.

WORKING EQUIPMENT.

The main building is heated by steam and the men's building by stoves. Sewage passes into a stream below and at some distance from the buildings occupied by inmates. Lighting throughout is by electricity. Spring water is supplied to the barns and is used for cooking and drinking purposes. Otherwise the water supply, as previously noted, is from the village of Cairo. The laundry plant is in the basement of the main building directly under the service division. The floor is of concrete and the equipment includes rotary washers, stationary tubs and hand wringers. A powerful extractor and a mangle are needed.

HYGIENE AND SANITATION.

The buildings were clean and in order throughout, and a homelike atmosphere pervades the dormitories and sitting rooms. Dormitories are well lighted and ventilated and were not overcrowded.

Spring beds with pads or mattresses are supplied for all inmates. The beds were well made and comfortable and were free from vermin. Bed linen is changed weekly. Toilet and bathing facilities are adequate and the toilet rooms were clean and odorless. The bath-tubs are old but have recently been re-enameled, and the plumbing is in good condition. The weekly bathing of all inmates is required. For weekly baths separate towels are supplied, but for daily use in the lavatories roller towels are furnished. For hygienic reasons the use of individual towels is recommended.

New floors have recently been laid in several of the dormitories and bedrooms, but they are still needed in the two end rooms of the women's section and in the women's toilet room. Floors are swept daily and are scrubbed and oiled each week. The dormitories, corridors and service division are completely screened.

CARE OF THE SICK.

Sick women are cared for in their own rooms, and a three-bed infirmary is provided in the men's division. Inmates suffering with tuberculosis are transferred to the Albany Hospital Tuberculosis Sanatorium, and other cases of serious illness are removed to one of the Albany hospitals for treatment. The visiting physician is Dr. E. H. Huntington, who resides at Cairo, a quarter of a mile distant, and visits the almshouse on an average of twice a week and is also present on summons. The only sick at the time of inspection were three women, two of whom are confined to their beds with rheumatism and the third with paralysis.

THE KITCHEN AND DIETARY.

The kitchen is in charge of an experienced cook. Separate dining rooms are provided for the men and women. These rooms are well lighted and ventilated and are screened. White dishes are used and the tables are covered with white oilcloth. Your inspector was present at supper and witnessed the serving of the meal. There is no delay between the apportionment of the food and the entrance of inmates.

The meals served on the day of inspection were as follows:

Breakfast—Oatmeal and milk, hash, bread and butter, tea or coffee.

Dinner—Potatoes, pork and beans, bread, tea.

Supper—Warmed potatoes, bread and milk, tea.

Butter is served twice a day in Summer, and three or four times a week in Winter or when the supply is short. The dinner menus are varied

throughout the week. The garden furnishes fresh vegetables in season. Milk is usually available in such quantities that inmates may have all they wish to drink.

CENSUS.

The census of the institution on the day of inspection is given below:

	Male.	Female.	Total.
Number of inmates.....	36	37	73

Classification of Defectives.

Blind.	1	1	2
Deaf Mutes	1	0	1
Feeble-minded persons and idiots.....	1	4	5

THE FARM.

The farm contains one hundred and ninety-six acres, of which about one hundred acres are under cultivation. The barns and buildings are in good repair with the exception of the corn-crib, which needs a new roof. The livestock includes twelve cows, four horses, eleven pigs, eight turkeys and about one hundred hens.

RECORDS.

The State Board of Charities Record of Inmates is maintained. The last entry is No. 1104 and is dated April 24, 1915. Since the last inspection, Sept. 22, 1914, there have been seven deaths, all of them males, and there have been no births during the period.

OFFICERS AND EMPLOYEES.

A list of the officers and employees of the institution, together with the position and compensation of each, includes the following:

ADMINISTRATION.

Separation of the sexes is provided for by separate dormitories, dining rooms and yards. Religious services are held at the almshouse every two weeks. In the event of death, relatives where known are notified and there is a religious service at burial. Inmates able to work are provided with occupations suitable to their strength. All of the holidays are observed. Inmates expressed satisfaction with the provision made for their comfort.

Respectfully submitted,
(Signed) MOLLY W. ANDERSON, Inspector.

The principal needs of the Greene County Almshouse as indicated in the foregoing report are as follows:

1. New floors in the end rooms in the women's section and in the women's toilet-room.
2. The recharging of fire extinguishers.
3. The use of individual towels in the lavatories.
4. A new roof on the corn-crib.

Yours very truly,

A report of the inspection of the Greene County Jail made by E. R. Cass of the Prison Association of New York was read, and on motion of Mr. Ford it was received and spread upon the minutes:

New York, April 9, 1915.

Clerk Board of Supervisors, Greene County Jail, Catskill, N. Y.:

Dear Sir—Subsequent to my recent inspection of your county jail I am sending you herewith a copy of my report.

The Prison Association is empowered and duty bound by law to inspect the correctional institutions in this state, and report the conditions found in each, annually, to the Legislature of the State of New York.

These reports constitute an official document of the Senate of the State of New York.

Very truly yours,

E. R. CASS, Assistant Secretary.

GREENE COUNTY JAIL, CATSKILL,

Inspected March 7, 1915, by E. R. Cass, 1:55 p. m. to 2:50 p. m.

The total population at the time of inspection was 11, classified as follows:

- 6 adult males, awaiting action of the Grand Jury.
- 5 adult males, serving sentence.

The sheriff of the county is Elmore Mackey. He is assisted in the jail by F. Mackey. The sheriff receives \$2.80 per capita per week for the board of prisoners.

The jail is a modern three-story-and-basement sandstone structure. It is lighted by electricity and heated by steam.

There is a modern type of cell-block on each floor. Access to each floor is had by a wooden stairway located in the corridor separating the jail from the sheriff's residence. With the exception of the utility corridor on the first and second floors, highly satisfactory condition of cleanliness prevailed throughout the jail. In each of the utility corridors mentioned there was an accumulation of paper and sweepings. Placing paper and sweepings at the ends of the utility corridors should of course not be allowed.

The wash-basin faucets do not work properly, perhaps because the seats of the valves are worn. Water pressure for the upper floors of the jail is inadequate.

The kitchen, which is the sheriff's own private one, was very clean. The agateware dishes used to serve food to the prisoners are badly chipped.

In the basement is the tramp room, the cleanliness and order of which was satisfactory. There were no tramps on the night of March 6th. On March 5th there were 5. During the year of 1914 there were 300 night lodgers. The sheriff is allowed 10 cents per diem for each lodger. It was said that lodgers are given supper and breakfast.

The prisoners in the jail receive three meals a day. They expressed satisfaction at the quantity and quality of the meals, and also as to the treatment accorded them by the sheriff and his subordinate.

The jail is used as a town lockup.

At the time of the inspection preparations were being made for the regular Sunday services.

Since the last inspection the window-sashes throughout the jail have been painted.

RECOMMENDATIONS.

1—To prevent rust and uncleanness of the toilet seats a layer of cement should be placed over the ironwork surrounding the top of the toilet bowl; it should be high at the ends and pitched toward the center, so as to permit proper drainage. The iron sliding doors in front of the niche should be removed permanently.

2—A better water supply should be provided, so that there will be sufficient pressure for the upper floors of the jail.

3—The utility corridors should be kept as clean as the other parts of the jail.

4—Crockery or aluminum eating utensils should be selected when a new outfit is purchased, to replace the present agateware equipment. Agateware eating plates and pans are desirable until the enamelled coat-

ing begins to chip. After that it is impossible to keep the rough-surfaced metal, exposed by the absence of enamel, free from rust and dirt.

5—A strict censorship should be exercised over the pictures that the prisoners place in their cells.

6—There should be an additional Grand Jury meeting during the year.

7—The system of paying the sheriff \$2.80 per capita per week for the board of prisoners and 40 cents per lodger a night is in part a survival of the old fee system. The fee system has practically been abolished except in three counties. The fee system is a wrong basis on which to defray the cost of maintaining prisoners, and opens the way to injustice to both the prisoners and the management. The plan in vogue in all of the counties, with the exception of the three where the fee system is still continued, is to have the sheriff, or a committee appointed by the Board, purchase the necessary supplies and submit the bills to the county for payment. There are thirty counties boarding their prisoners for less than \$2 a week. A charge of 40 cents per night for lodging is extraordinary.

On motion of Mr. Ford the Board adjourned until to-morrow morning at 10:30 o'clock.

THURSDAY, NOVEMBER 18th.

The Board met pursuant to adjournment, with Mr. Krieger in the chair.

Upon the call of the roll a quorum answered to their names.

Non-resident taxes, admitted by the Comptroller and advertised to be sold, situate in Hardenburgh Patent, Great Lot 20, Sub-Lot 40, Lots 66, 67, 70, 71, 72, 73, 74, 76, 77 and 78.....\$180 50

State of New York, County of Greene, ss.:

A. B. Roraback being duly sworn, deposes and says: That he is the Supervisor of the Town of Lexington, Greene County, New York; that the foregoing claim for taxes erroneously assessed in said town has been paid to the Treasurer of the State of New York, after return and acceptance by the State Comptroller, same being advertised for tax sale; that all of said lots were assessed on the Assessment Roll of the Town of Lexington as non-resident lands and the taxes thereon as not having been paid; that all of said lots were also assessed during the same years to the owners of said lots as resident property, and the taxes were paid by such owners.

That there is actually due and owing to the Town of Lexington for such payment to the State Treasurer, after accepting and advertising the same, and for which the County of Greene had credit, the said sum of \$180.50.

That no part thereof has been paid, and that there are no other offsets against the same. That deponent has made diligent inquiry and found the facts as stated in this affidavit; and to prevent further costs, trouble and expense, deponent advised the Town to pay said taxes, and that he caused the same to be paid.

That the foregoing claim is justly due and owing to the said Town of Lexington, and that no payments have been made thereon, and that there are no offsets against the same to the knowledge of deponent.

Wherefore deponent asks that the amount claimed be allowed and assessed against the County of Greene, and paid over; when collected, to said town to reimburse the payment thereof.

Mr. Krieger, Chairman of the Committee appointed to acquire necessary lands for the construction of the Prattsville-Ashland State Highway No. 5491, presented the following report of the Committee:

To the Board of Supervisors of Greene County:

Your committee, consisting of the undersigned, Elmer Krieger, chairman, H. Clay Ferris and Frederick M. Goslee, appointed to acquire for the County of Greene all the lands necessary for and in the construction of the Prattsville-Ashland State Highway No. 5491, Route 5A, Section No. 17, and to purchase such lands for the County of Greene at such prices as by them might be deemed just and reasonable, and in such cases where no agreements as to the price of such lands could be made, to take such proceeding under the statute in such cases made and provided to acquire the said lands, do hereby make the following report:

We have acquired the following parcels of land from the following named persons by agreements in writing, duly executed, hereto annexed, for the prices below set forth:

From Michael Hanley, parcel described on Map No. 1, containing fifty-nine one-thousandths of an acre of land, for the sum of	\$50 00
From Dwight Conine, parcel described on Map No. 2, containing sixty-seven one-thousandths of an acre of land, for the sum of	25 00
From Melvin Tompkins, parcel described on Map No. 3, containing two hundred and seventy-six one-thousandths of an acre, for the sum of.....	200 00
From George Pelham, parcel described on Map No. 4, containing one and two hundred and eleven one-thousandths of an acre of land, for the sum of.....	500 00
From Freemont Martin, parcels described on Maps Nos. 9 and 10, containing eleven one-thousandths of an acre of land, for the sum of	50 00
From Lynn S. Munson, parcels described on Maps Nos. 11 and 12, containing three hundred forty-eight one-thousandths of an acre of land, for the sum of.....	100 00

From Sarah Hainor, parcel described on Map No. 6, containing three one-thousandths of an acre of land, for the sum of.....	\$100 00
From Maggie Ferris, parcels described on Maps Nos. 13 and 14, containing two hundred and fifty-eight one-thousandths of an acre of land, for the sum of.....	100 00
From Arthur Voorhees, parcels described on Map No. 15, containing ten one-thousandths of an acre of land, for the sum of.....	160 00
From George Christian, parcel described on Map No. 16, containing six one-thousandths of an acre of land, for the sum of.....	50 00
From Jessie B. Martin, parcel described on Map No. 17, containing one one-thousandth of an acre of land, for the sum of.....	25 00

That the parcel described upon Map No. 5 as owned by Gilbert Conroe, containing forty-two one-thousandths of an acre of land, and upon Map No. 7 as owned by Joseph Conroe, containing seventy-three one-thousandths of an acre of land, and upon Map No. 8 as owned by George Beers, containing twenty-seven one-thousandths of an acre of land, aggregating one hundred and forty-two one-thousandths of an acre, we find upon investigation are owned by the heirs at law of Julia Covile, who died intestate, owning the above parcels of land, and that it is impossible at the present time to acquire said parcels of land by purchase for the reason that one of the heirs at law and owners of said premises cannot be found. That an action in the Supreme Court for the partition or sale of said premises has been commenced by one of the heirs at law, and your committee deem it for the best interests of the county to defer proceedings to acquire said parcels until after the completion of said action, when the same may probably be acquired by purchase.

Your committee would further report that in the case mentioned in this report where a price in excess of the sum of two hundred dollars has been agreed to be paid, the County Judge and County Treasurer have approved the purchase and endorsed their approval upon the agreement relating thereto, hereto annexed.

Your committee would further report that at the date of this report all the lands necessary to be acquired for the construction and improvement of said highway as indicated upon the land-taking maps filed by the State Highway Commission or otherwise, have been acquired excepting said parcel owned by the heirs at law of said Julia Covile, deceased, as above set forth.

Your committee would further report that in the performance of their duties in acquiring said lands, the examination of title and closing title and for the purpose of conducting necessary legal proceedings your committee have employed the services of Benj. I. Tallmadge, attorney at law, of Windham, New York.

Dated at Catskill, New York, December 7, 1915.

We, Floyd F. Jones, Supervisor, Henry Chadderdon, Town Clerk, Charles A. Bassett, Ira D. Vail, Lysander Lennon and Francis C. Burnham, Justices of the Peace, of the town of Cairo, Greene County, New York, constituting the Town Board of said town, pursuant to Section 97 of the Highway Law of the State of New York, make the following statement:

That at a town meeting of the town of Cairo, Greene County, New York, held on the 2d day of November, 1915, the following proposition was duly submitted after due notice thereof:

Shall the Town Board of the Town of Cairo, Greene County, New York, be authorized to apply to the Board of Supervisors of said County of Greene for authority to borrow the sum of \$3,000.00 for the purpose of paying the cost of constructing three certain bridges built on the line of the Cairo-Windham State Highway No. 5462, pursuant to the order and direction of the Commission of Highways of the State of New York, and for the share of the town of Cairo of the cost of constructing a bridge built jointly by the towns of Cossackie, Athens and Cairo over the Potic Creek at the point where the town lines of said towns meet, and known as the "Three Town Bridge" on the highway formerly known as the Schoharie Turnpike, and issue bonds therefor, a sum sufficient to pay the interest and principal as the same shall become due, to be raised annually by tax?

That the vote upon such proposition was by ballot and two hundred and eighty votes were cast and counted in the affirmative on said proposition, and one hundred and eighty-five votes were cast against and in the negative on said proposition, the same being adopted by a majority of ninety-five votes.

That it is estimated that to pay the cost of constructing the several bridges above referred to, or to refund and pay any temporary loan made to pay the whole or any part of the cost of construction of said bridges, and interest charges thereon, about \$3,000.00 will be necessary.

The forgoing estimate is based upon the cost of constructing the three concrete bridges built on the line of the Cairo-Windham State Highway No. 5462, pursuant to the order and direction of the Commission of Highways of the State of New York, said bridges having been virtually condemned by said Commission, consisting of one span of eight feet, one span of ten feet and one span of fifteen feet, no one of which cost \$1,500.00, and the total cost of which, under a contract entered into for the construction thereof, was \$2,250.00; the share and proportion of the town of Cairo of the cost of constructing the bridge over the Potic Creek at the point where the town lines of the towns of Athens, Cossackie and Cairo meet, and known as the "Three Town Bridge," and which was built jointly by said three towns, as provided by statute, was \$528.67, each of the towns paying one-third of the total cost under a contract made for the construction of said bridge; the total of said amounts above mentioned, together with the interest charges on a temporary loan made to pay same pursuant to the terms of the contracts for the construction of said bridges, will be about \$3,000.00.

Mr. Hoose, Chairman of the committee appointed to acquire necessary lands for the construction of the Coxsackie Village State Highway (Route No. 3, Section No. 10) presented the report of the committee, which on motion of Mr. Ferris was received and ordered printed in the proceedings: To the Board of Supervisors of Greene County:

Your committee, consisting of the undersigned Lewis Hoose, chairman, Abram B. Roraback and Dayton B. Smith, appointed to acquire for the County of Greene all necessary rights of way needed in the construction of the Coxsackie Village State Highway (Route No. 3, Section No. 10) and to purchase such lands for the said County, at such prices as by them might be deemed just and reasonable, and in such case as no agreement with the

owners could be reached, to take such proceedings under the statute in such case made and provided to acquire said land, do respectfully report, in addition to the previous report made to your Board in December, 1914, as follows:

We have obtained title from Frank F. Bedell and wife by deed duly recorded in the Greene County Clerk's Office for 4/100 of an acre of land more or less, for the price of \$25.00, the agreement for which was reported in report of December, 1914.

We have obtained title from John L. B. Silvester by deed duly recorded in the Greene County Clerk's Office for 1/100 of an acre of land more or less, for the price of \$185.00, the agreement for which was reported in report of December, 1914.

Your committee would further report that they have not been able to obtain a deed from Michael Dolan and wife for 80/100 of an acre of land, the agreement for which was reported in the report of December, 1914, for the reason that the title to the property of the said Michael Dolan is so involved by reason of mortgages and judgments, and it is practically impossible to get good title thereto.

All of which is respectfully submitted.

Dated Catskill, N. Y., December 29, 1915.

LEWIS HOOSE, Chairman,
ABRAM B. RORABACK,
D. B. SMITH.

The Clerk read the report of the inspection of the Jail as made by Philip G. Roosa, and on motion of Mr. Huyck it was received and ordered printed in the proceedings:

GREENE COUNTY JAIL, CATSKILL.

Elmore Mackey, Sheriff.

Inspected May 27, 1915.

There were 6 prisoners at the time of inspection, all males; five convicted of crime and one held for the Grand Jury.

The average number of inmates, not including lodgers, during the past year was about 18; the highest 20. At one time there were no prisoners. The highest number of lodgers at any one time was 20.

The Jail was found in its usual excellent condition, clean, well cared for, and in good repair.

The bedding, consisting of mattresses, pillows, sheets, pillow-cases and blankets, showed the same care as the rest of the institution. The closets, baths and wash-bowls were all clean.

The Jail is lighted by both gas and electricity, and heated by steam. Prisoners are compelled to bathe once a week. None of them is employed except an occasional trusty. At the time of inspection there was but one. Clothing is furnished the prisoners by the county when necessary.

Inmates are given three meals a day. Breakfast consists of cat meal

and milk, bread and coffee; dinner, soup, meat, potatoes, bread and tea; supper, potatoes, bread and tea, and at intervals pork and beans in addition.

There are three stationary tubs in the basement. The Sheriff seemed to think that the laundry facilities were sufficient.

The Sheriff's wife acts as matron.

Since the last inspection the windows throughout the Jail have been painted, also the interior of the second floor.

The Grand Jury meets three times a year. Purchases are made from the penal institutions.

The Jailer's record is well kept and was up to date.

The Jail as maintained is a credit to the county and its officials.

Respectfully submitted,

PHILIP G. ROOSA, Inspector.

The Clerk read two communications from the Commission of Highways.

A communication from the Comptroller relative to the amount that was necessary to discharge the debt of this county for roads which were constructed by the state paying all in the first instance, was read and received.

State of New York, Comptroller's Office,

Albany, December 18, 1915.

Mr. W. B. Townsend, Clerk Board of Supervisors, Greene Co., N. Y.:

Dear Sir—Inquiries have been made of this Department in reference to the indebtedness of certain counties on account of roads which were constructed by the state paying all in the first instance. Chapter 400, Laws of 1915, permits the counties to relieve themselves of certain interest charges and provides the method.

You were notified October 20, 1915, of the amount of sinking fund and interest to be paid yearly in order to discharge the indebtedness. The interest as shown in that letter is due at the time you receive the letter, but under the law it is paid at the same time as the direct state tax.

The following table shows the amount necessary to discharge the debt after you have raised the amount stated in our letter of October 20, 1915:

Road No.

613—Catskill	\$14,460.04	\$8,342.43
719—Coxsackie	15,747.75	8,399.25
New Baltimore		594.45
796—Greenville	13,141.48	3,538.04
797—Windham	11,089.35	2,559.15
	<hr/>	<hr/>
	\$54,438.62	\$23,433.32

If Chapter 400, Laws of 1915, is not taken advantage of until the next session of the Board of Supervisors, there should be added interest charges for 1916. You can tell the interest charges by leaving out the sinking fund charges as shown in our letter of October 20, 1915.

Yours respectfully,

EUGENE M. TRAVIS, Comptroller.

The report of Claude D. Mulbury, one of the Coroners of this county, was read, received and ordered printed in the proceedings. (See Reports of County Officers.)

On motion of Mr. Ferris, the Board adjourned until to-morrow morning at 10 o'clock.

THURSDAY, DECEMBER 30th.

The Board met as per adjournment yesterday.

Upon the roll being called a quorum answered to their names.

The minutes of the last session were read and approved.

On motion of Mr. Roraback, *Resolved*, That the Superintendent of the Poor, together with the Matron, be granted a ten days' leave of absence to attend the Annual Convention of Superintendents of the Poor of the State of New York, and that the expenses incurred be audited by the Board of Supervisors and paid with the other annual expenses of said Superintendent.

The committee appointed to draft resolutions on the death of Mrs. Dayton B. Smith reported as follows, which was received:

Whereas, It has been the divine will of Almighty God to remove from the home of our brother Supervisor, Dayton B. Smith, the wife, the mother, and bring sorrow to one who has been so closely in touch with us during the past few years as representatives of the towns of this county. We, the members of the Board of Supervisors, wish to express our deep-felt sympathy, and feel sure that He who is the giver of all things blessed, is also the One that taketh and that His calling has been to fulfill some great purpose which we shall some day understand, and as there is a silver lining beneath every cloud of darkness, so may the sunshine come again to the home where awaits the father and his children.

Resolved, That this resolution be spread upon the minutes and a copy be sent to the bereaved family.

Dated Catskill, N. Y., December 30, 1915.

DALE S. BALDWIN,
J. HENRY DEANE,
FLOYD F. JONES.

Your committee, consisting of the undersigned, Dale S. Baldwin, chairman, Dayton B. Smith and Frank Nichols, appointed to acquire for the County of Greene all necessary rights of way needed in the construction of the Coxsackie-Ravena Part I State Highway (Route No. 3, Section Nos. 11 and 12), and to purchase such lands for the said County at such prices as by them might be deemed just and reasonable, and in such cases as no agreement with the owners could be reached to take such proceedings under the statute in such case made and provided to acquire the said land, do respectfully report, in addition to the previous reports made to your Board on December 20, 1912, December 19, 1913, and December 5, 1914, as follows:

In the report of your committee dated December 5, 1914, it was stated that your committee had obtained an agreement to sell from Howard Forman for 5/100 of an acre, and had a deed prepared which Mr. Forman refused to execute, as he contended that the County had taken additional land beside that covered by the contract. The contract price was \$40.00. Up to the present time your committee have been unable to agree with Mr. Forman and no deed has been executed and delivered by him.

Your committee would further report that they have not come to any agreement with Marvin J. Cook, the owner of land shown on Map No. L-AB,

for the reason that Mr. Cook resides in the city of Boston and your committee has not been informed of any visit that he has made to Coxsackie since the last report. Your committee has been in correspondence, however, with Mr. Cook through the committee's attorneys, and the only difficulty in coming to an agreement is a question as to amount of land taken, and your committee anticipate no difficulty in agreeing upon the amount of money to be paid for the land when an agreement can be reached as to the quantity of land taken, and would not advise, at this time, condemnation proceedings.

All of which is respectfully submitted.

Dated Catskill, New York, December 30, 1915.

DALE S. BALDWIN, Chairman,

FRANK NICHOLS,

DAYTON B. SMITH, Committee.

Mr. Seifferth, Chairman of the committee appointed to acquire lands for the Hunter-Tannersville County Highway, presented the report of the committee, which was received:

To the Board of Supervisors of Greene County:

Your committee, consisting of Thomas Seifferth, Jr., chairman, Elmer Krieger and Abram B. Roraback, appointed to acquire for the County of Greene under the direction of the State Highway Commission all necessary rights of way needed in the construction and for the maintenance of the Hunter-Tannersville County Highway No. 1242, Pct. Nos. 2403 and 3258, Greene County, does respectfully report as follows:

Your committee was directed by the State Highway Commission to acquire for the construction of said highway certain parcels of land as shown on the maps of said highway. Your committee reports that, pursuant to said direction, it obtained releases in the nature of a leave to enter upon said lands for the purpose of constructing said highway, which instruments release the said State Highway Commission and its employees from any liability or damages caused by trespassing, etc., leaving the value of said lands to be hereinafter fixed and agreed upon, and if such agreement cannot be made, providing for the acquisition of said lands by the Board of Supervisors, pursuant to the Condemnation Law. Following is a statement of parcels of land for which such releases were obtained, the names of the owners of said lands, the amount acquired, and the map showing or designating the same:

Owners.	Area of land.	Map No.
Abram J. Dworsky.....	0.18 acres	1
Jacob Goell.....	0.32 acres	2
John Hylan.....	0.04 acres	3
William Haines.....	0.03+0.04 acres	4 (A-B)
Nathan Halpern.....	0.21 acres	5
Morris Halpern.....	0.05 acres	6
Amos Gordon.....	0.32 acres	7

Your committee further reports that during the construction of said highway your committee was directed to acquire a certain parcel of land belonging to Simon J. Cannane and a certain parcel of land belonging to Mrs. Bertha Nathanson, but which parcels of land are not yet mapped and your committee was therefore unable to procure any releases for the same.

Your committee further reports that it employed Edward W. Lackey of

Tannersville, New York, as its attorney, and the required work in connection with the matters above referred to was done by him.

All of which is respectfully submitted.

Dated Catskill, N. Y., December 30, 1915.

THOMAS SEIFFERTH, Jr., Chairman.

ELMER KRIEGER,

ABRAM B. RORABACK.

Mr. Deane offered the following, which was adopted:

Whereas, Section 171-b of Chapter 317, Laws of 1915, provides that the State Tax Commissioners may require the local assessors of every tax district in the State to meet with the Commission at least once in two years, and that the traveling and other necessary expenses incurred by the local assessors in attending such meeting shall be a charge upon the district which they represent; and

Whereas, Section 173, same chapter, provides that one or more members of the State Tax Commission shall officially visit every County in the State at least once in two years and inquire into the methods of assessment, etc., and the expense of Supervisors and Assessors attending such meeting shall be a charge upon the county; therefore be it

Resolved, That this Board of Supervisors is opposed to the unnecessary expense involved in sending the assessors of each town in this County to Albany to attend such meeting; and that in the opinion of this Board it is much cheaper for one man to come from Albany to Greene County than it is for forty-two men to go from Greene County to Albany, when the same effect can be accomplished by the Tax Commission visiting the County as has been done for many years prior hereto; and be it further

Resolved, That the Clerk of this Board send a certified copy of this resolution to the State Tax Commission.

Mr. Goslee, Chairman of the committee appointed to prepare and present a Grand Jury list, presented the report of the committee, which was received and the Clerk instructed to file the new list with the County Clerk: To the Board of Supervisors of Greene County:

Your Committee to whom was assigned the duty of preparing a list of Grand Jurors would respectfully recommend that such Jurors be apportioned among the towns of the County as follows:

Mr. Seifferth, Chairman of the committee appointed to acquire lands for the construction of the Kaaterskill Clove State Highway, presented the report of the committee as follows:

To the Board of Supervisors of Greene County:

Your committee, consisting of Thomas Seifferth, Jr., chairman, Frank Nichols and John Huyck, appointed to acquire for the County of Greene all necessary rights-of-way needed in the construction and for the maintenance of the Kaaterskill Clove State Highway, Route 5-C, Greene County, etc., does respectfully further report as follows:

The committee entered into an agreement with Florence D. Hinman of Palenville, in said Greene County, pursuant to which the said Florence D. Hinman executed and acknowledged a deed for three one-hundredths of an acre of land, more or less, shown on Map No. 19 A-B. The agreed upon consideration was \$40. Said deed is not yet recorded but is in the possession of the committee to be recorded on payment of the said consideration.

The committee was unable to agree with Peter H. Scribner or Agnes E. Scribner as to the value of lands owned by them and for which they executed releases as reported December 7, 1914. The committee instructed its attorney to institute condemnation proceedings against these two parcels of land.

The committee entered into an agreement with Augusta Deutch (née Augusta Lichtenstein) pursuant to which the said Augusta Deutch executed and acknowledged a deed for four one-hundredths of an acre, more or less, shown on Map No. 17. Said deed has not yet been recorded but is in the possession of her attorney to be delivered on payment of the agreed upon consideration, namely \$300.

Your committee is advised by George Penfield, Engineer of the Highway Department, that the lands shown on Map No. 15 will not be required for the construction of this highway. A release was obtained from the owners as reported December 7, 1914.

The committee entered into an agreement with Christian Intemann and his wife for the acquisition of eleven one-hundredths of an acre of land as shown on Map No. 14, and also for two other parcels of land shown on a supplemental Map No. 14, whereby the said Intemann and wife agreed to convey to the County of Greene the first mentioned parcel for the sum of \$200.00, and parcel "B" on said supplemental map for the sum of \$200.00, and parcel "C" on said supplemental map for the sum of \$150.00. The said parties executed and acknowledged a deed of said parcels of land which is not yet recorded but is in the hands of their attorney, to be delivered together with releases from certain mortgages to be obtained by him, on payment of the consideration aforesaid.

The committee acquired title to thirty-five one-hundredths acres of land shown on Map No. 13 for the sum of \$800, the agreement therefor being approved by the County Judge and County Treasurer of the County of Greene, and the moneys paid by the County Treasurer to Eugenie Chichester, the owner thereof.

Owing to the fact that the work of constructing the highway had not progressed to a sufficient extent to enable the committee to fairly appraise the damages, no further agreements were made.

The committee further reports that it was advised that certain of the lands indicated on the map of said highway as lands of "George Harding Estate" belonged to one Herbert C. Wilcox of New York city. Upon being requested so to do, Mr. Wilcox declined to execute any release and stated that he would make some other arrangement for the entry upon these lands. This information was not received by the committee until September, 1915.

The committee did not hear further from Mr. Wilcox. When the contractor entered upon the lands referred to, Mr. John McKeefrey notified the contractor that he was the owner of the said lands and that the contractor must not enter thereupon. Thereafter the committee acquired a release of said lands from said McKeefrey.

Your committee recommends the acceptance of the deeds herein mentioned and the payment of the said sums for each respectively.

Your committee further reports that Edward W. Lackey, as its attorney, performed the required work in connection with the matters above referred to.

Dated Catskill, N. Y., December 30, 1915.

FRANK NICHOLS,
JOHN HUYCK, Committee.

Some provision should be made to either collect from the State of New York the accepted taxes withheld by the State, amounting to the sum of \$15,220.97, as heretofore reported, or an appropriation of like amount be made in order that the balances of the several accounts may be provided for.

Pursuant to Chapter 715, Laws of 1892, I hereby report no local laws were received by me from the Secretary of State for publication.

Dated December 1, 1915.

JUDSON A. BETTS,

Greene County Treasurer.

Sealer of Weights and Measures.

To the Board of Supervisors of the County of Greene:

I, Adin E. Ballou, Sealer of Weights and Measures for Greene County, New York, respectfully submit my annual report for work done from Nov. 1, 1914, up to and including Nov. 1, 1915:

	Tested	Correct	Condemned	Adjusted
Wagon Scales	21	19	..	2
Platform Scales	162	156	1	5
Counter Scales	389	383	4	2
Spring Balances	69	61	3	5
Beam Scales	9	6	3	..
Computing Scales	88	78	8	2
Dry Measures	396	394	2	..
Liquid Measures	502	490	12	..
Oil Pumps	69	48	7	14
Avordupois Weights	1985	1977	6	2
Ice Cream Boxes	16	16
Counter Tacks	43	42	..	1

The above tabulation does not include work done during two general inspections of the county made, one in August and one in October, in company with Deputy J. J. O'Hara of the State Department of Weights and Measures, and of which the records were taken by him. As is usual, also, the regular

routine work of my office has comprised the miscellaneous testing of many packages, butter prints, milk cans and bottles, and privately owned apparatus, etc., the records of which are too diverse and complex for tabulation in this report.

In my work during the year I traveled by automobile 2,678 miles, and endeavored to give prompt reply to all calls for special tests of apparatus, and to all complaints of short weight or measure. Many requests for copies of the various weight and measure laws have also been complied with during the time covered by this report.

The State Department of Weights and Measures, owing to many complaints by automobile clubs and individuals, instituted during the summer of 1915 a special crusade among the owners of measuring pumps for the sale of gasoline; and the testing and adjusting of devices of this sort, including many new pumps, has formed—as it did also in 1914—a constantly growing portion of my work. The price of gasoline is at the time of this report very close to that paid by householders for a daily milk supply, and the question of its accurate dispensement at these mounting figures is an important one for both dealer and consumer. A measuring pump, when properly installed, adjusted and cared for, can be very accurately used as a measuring device; but in many cases one or more of these requirements have been found lacking in the pumps I have inspected, many have needed adjustment or condemnation, and in one case a conviction was obtained for selling from a pump previously condemned as inaccurate.

The Federal Government, through the Bureau of Standards at Washington, is taking yearly more and more interest in weight and measure legislation and supervision, and a strong effort is being made by the bureau toward the passage of laws that will prevent, through rigid manufacturer's specifications, the launching of inaccurate or easily defective apparatus. This is obviously important, and in my inspection work apparatus newly installed by the dealer is often found inaccurate and unusable. Our own state Legislature has so far failed to pass a statute of this sort, although several bills to accomplish this action have been brought before that body. It is possible, however, for the Sealer to work toward better weighing and measuring devices by the gradual elimination by him from the apparatus under his jurisdiction of all such devices that fall below a reasonable physical accuracy, and their constant replacement by apparatus of correct specifications and tolerances. I am glad to be able to state that the weighing and measuring apparatus of the county is capable of a high rating, and is continually improving in character and fitness. By an intelligent co-operation of the consumer and the honest, progressive dealer with the local weight and measure official, it is possible to considerably lift the methods and accuracy of commodity dealings, and this condition, I think, is gradually being obtained in this state; although the general supervision of such work, in its broadest and most necessary forms, is still handicapped by the lack of funds placed at the disposal of the State Department of Weights and Measures by the Legislature. Definite Federal legislation in weights and measures, however, which is clearly soon coming, will doubtless stimulate needed local action by the many states now maintaining weight and measure departments, and it is certain that our own state will eventually be second to none in such progressive work.

All of which is respectfully submitted.

ADIN E. BALLOU.

County Judge.

To the Board of Supervisors of Greene County:

JOSIAH C. TALLMADGE.

Sworn to before me this 20th day of November, 1915.

JAMES H. REILLY.

Clerk to the Surrogate's Court of Greene County, New York.

County Superintendent of Highways.

To the Board of Supervisors of Greene County:

The past year has been a most disastrous one to many of the towns in the county, and especially to the mountain sections. Bridges have been swept away, others have been badly damaged, and one road about three-quarters of a mile in the town of Jewett was almost entirely destroyed by the flood and had to be abandoned. The cost to the towns of repairing and keeping their roads in fairly good condition has been a big handicap to permanent road improvement. However, something has been done, and about seventeen miles of good stone roads have been built during the past year, the town of Hunter taking the lead with six miles to its credit. Catskill comes next, and the towns of Coxsackie, Greenville, Jewett, New Baltimore and Lexington have done some good permanent highway improvement. A rock cut 300 feet long and costing \$826 was done by the town of Catskill, widening and otherwise improving a very dangerous curve on one of its principal traveled roads.

Oiling Roads—I am fully convinced that no stone or water-bound road will stand the wear of the automobile travel unless oiled once, or,

better still, twice a year. The town of Hunter the past year expended upwards of \$1,700 in oiling stone roads, and the taxpayers are loud in their praise and consider it the best investment they can make toward maintaining their macadam roads. It abates the dust nuisance and binds and keeps the surface of the roads in good condition at all times.

Another hindrance in obtaining good results is the term of the office of the town superintendent. It should be no less than four years, and it should be an appointive instead of an elective one, and if filled by an incompetent he should be removed by the Commission. I consider the election of town superintendent every two years the weak link in our present highway system.

Nearly all the towns have constructed new bridges during the past year, the town of Hunter taking the lead. The bridges were of iron or concrete with reinforced concrete floors. Altogether there were seventeen constructed, besides extensive repairs made to many more. 182 iron and concrete culverts were placed, and a number of bridges were repainted.

More bridge painting should be done the coming year, and more concrete culverts should be constructed. I have endeavored to have concrete instead of iron, as you get more room for the flow of water and it leaves the money in your own town. Where it is at all practicable concrete should be used instead of iron.

Respectfully submitted,

M. O'HARA, County Superintendent of Highways.

The Enrollment for the year 1915 was begun by us November 10th, following the election, and the same was completed and the necessary copies made thereof, for the respective political parties, by February 15, 1915.

There were enrolled for said year, six thousand seven hundred forty-six (6,746) electors, the number enrolled under each respective party being as follows: Republicans, 3,031; Democratic, 2,717; Independence League, 21; American Party, 14; Prohibition, 179; Progressive, 135; Socialists, 76; there being 561 Blanks and 26 Void. Certified copies of the enrollment were also transmitted to the Chairmen of the several County Committees.

That during the month of March we sent out by mail, pursuant to law, one thousand enrollment ballots for persons wishing to enroll as members of the American Party.

That during the said year there has been held in the County of Greene an Official Primary Election, as provided by law. Said Official Primary Election was held on the 28th day of September, 1915, and at said election there were elected by the Republican, Democratic, Prohibition, Progressive, and Socialist Parties members of the County Committee.

We canvassed the vote cast at the primary, of the respective parties, for the members elected to the County Committee.

The names of the persons elected at said primary, as members of the County Committee, are on file in the office of the Board of Elections.

The Fall Primary, held on the 28th day of September, 1915, was also for the purpose of nominating candidates for the several public offices to be filled at the General Election which was held on November 2, 1915.

We canvassed the vote cast at said Primary, of the respective parties, for the persons nominated to public office, and made our returns thereof to the Secretary of State of all persons nominated outside of our County Officers.

The registration was held throughout the county on the 8th, 9th, 15th and 16th days of October, where the registration was personal, and on the 9th and 16th where personal registration was not required. The total registration for the year 1915 was nine thousand three hundred ninety-four (9,394).

Notices of the Official Primary Election were published in two newspapers, as provided by law, and notices of the General Election were published in the two officially designated newspapers, prior to the Election, as provided by law. The list of nominations was published as provided by law.

The various Town Clerks throughout the County have been both diligent and painstaking, in their efforts to carry out the provisions of the Election Law regarding their duties relating to election matters.

The Boards of Inspectors in the various Election Districts have, as a whole, done very well in carrying out their duties, as Inspectors under the new ballot system.

All of which is respectfully submitted.
